DIGITALIZATION.
Simplified

Digital Transformation with **SwiftB2B** enterprise integration Platform as a Service

- Digitalization when correctly implemented, will lead to increased profitability (EBIT MARGIN & Net profit margin) and will create sustainable competitive differentiation.
- API Economy plays a pivotal role to enable organizations realize their Digital Transformation goals.
- 80% or more of Digital Transformation initiatives in organizations are slowed by integration challenges involving legacy systems, siloed systems both inhouse and externally.

Global market for eiPaaS is anticipated to grow at 42.1% CAGR & will be 8.6 Bn. USD by 2024.

Challenges

- ❑ Legacy businesses are stuck with complex, multiple legacy systems for managing the internal & external Trading Partner integrations.
- ❑ These legacy systems entail significant AMC costs, suck lot of IT resources time and slowdown the digital transformation initiatives.

Ideal solution

- Integration platform that is faster to implement and which can, connect to anything & transform from any source format to any desired format securely and Scalable.
- OPEX based (Zero CAPEX, especially when businesses are impacted by Corona Pandemic related slowdowns).

Desired outcomes

- ✓ Accelerated Digital Transformation.
- ✓ Superior and On-Demand customer service.
- ✓ Automations leading to everyone's productivity.
- ✓ Out of the box business SLA Management.
- ✓ Scalability on-demand and purely OPEX based pricing.

We at SwiftAnt, designed and implemented [SwiftB2B](#), which is your gateway to enterprise integration on-demand & API Economy. It's a framework built on Microsoft Azure Apps accelerating enterprise Integrations, EDI Implementations, and providing end to end supply chain Visibility with Cognitive Analytics. SwiftB2B – Change that brings value

	STRATEGIC BUSINESS VALUE	OPERATIONAL EFFECTIVENESS
TRANSFORMATIONAL CHANGE	<p>CREATE</p> <ul style="list-style-type: none"> • Single Point of Truth (without additional DWH) • Personalized Virtual Assistant • Analytics Platform • End to End Visibility 	<p>AVOID</p> <ul style="list-style-type: none"> • CAPEX (Hardware, OS, DB and BizTalk) • Delays with access to Information
INCREMENTAL CHANGE	<p>ENHANCE</p> <ul style="list-style-type: none"> • High Availability (99.9% out of the box) & On-Demand scalability • Speed of integration (8 weeks to 2 weeks) • Customer Satisfaction 	<p>REDUCE</p> <ul style="list-style-type: none"> • OPEX (~50K USD per year) for On-Premise systems • Manual Monitoring

SwiftAnt’s C-A-R-E methodology to map how change in technology benefits the business:

Create: New business and capabilities

Avoid: Eliminate / Avoid manual / redundant operations

Enhance: Business capabilities &

Reduce: Operational overheads / manual tasks.

Case Study 1

Successfully implemented end to end EDI implementation at 3PL Logistics Business with business SLA management, chat bot integration and analytics. Transformed 342 maps and rolled out in 3 months with ROI in 9 months.

Case Study 2

Successful Digital Transformation of Motor Insurance Industry, with Cross Industry Collaboration Platform. Scope included managing the structured and unstructured messages with Logic Apps and Azure functions. Rolled out in 7 months with ROI in 11 months.

Testimonial

“Implementation of Microsoft Logic Apps has been a revelation - we have end-2-end visibility of our supply chain transactions, moved from CAPEX to OPEX, and more importantly no more upgrades or patching required.”

— Head of Freight Forwarding Team of a Global 3PL Logistics Provider
